HARVEST | CRAFT DELIVER

Rooted in Green Excellence

Transworld embarked on a journey over **45 years ago**, to accelerate global trade, setting sail as the first company to connect the entire coast of India. From being the first Indian privately owned and flagged ship operator to being recognised as a **Certified Great Place to Work® in UAE and India (Dec 2022-23)**, Transworld has consistently worked to deliver prosperity and excellence to you, our customers.

Driven by our belief of "**Delivering Prosperity to Humanity**," sustainability is at the core of our operations. From pioneering responsible logistics and ethical practices to our unwavering commitment to stakeholder welfare and environmental stewardship, we take our responsibilities seriously. Our commitment fuels our drive to create impactful change, embracing the Farm-to-Fork journey and offering sustainable options for all.

*Transworld's legacy ignites our passion for a sustainable future. Rooted in these values, **Transgreen** leads in sustainable excellence from farm to factory to fork, embodying Transworld's enduring commitment to sustainability.*

The Beginning of a Green Legacy

Transgreen was born from a vision of sustainability, with environmental consciousness at its core.

For us, **green isn't just a colour**; it's a commitment to constantly evolving every aspect of our operations to protect and enrich the environment. We take thoughtful and deliberate actions that create a more sustainable journey, from farm to factory to fork. We also understand that incorporating these practices can make a positive difference in the product that we provide to you, in terms of quality and taste.

Our mission is to empower a green future by integrating responsible practices into every aspect of our operations. We are dedicated to Fair Trade, RFA, SCG, and CSR initiatives, aiming to deliver prosperity to humanity by adhering to ethical practices that ultimately benefit you and the environment.

The Path to a Greener Future

Our sustainability story unfolds through each stage of our **farm-to-factory-to-fork** process.

Powered by our 360-degree platform, which leverages green and tech driven logistics, we ensure traceability and the highest standards of sustainability at every step. Explore how each stage of our process upholds the highest standards of environmental responsibility and quality, ensuring every product contributes to a greener future.

Respect for the Earth

Guided by environmental consciousness and sustainability in all actions

Empowering Farmers

Teaching sustainable cultivation, supporting fair trade, and promoting prosperity for farmers

Green Factory

Ethical processing of sustainably grown products with energy efficiency and environmental consciousness

Sustainable Logistics

EV trucks and systematic transportation ensure minimal wastage

Delivering Green

Farm-fresh frozen produce delivered via a 360-degree green and tech driven platform ensuring traceability and sustainability

Our Consumers' Green Journey

Educate

We provide insights on the importance of sustainability

Empower

Our transparency helps consumers make informed green choices

Connect

We foster a community of environmentally conscious individuals

Freshness

Enjoy farm-fresh produce with traceable origins - making for a brand that is truly sustainable

The Transgreen Advantage

Global Supply Chain Management

We leverage Transworld's expertise in global logistics to ensure efficient and timely delivery

Unparalleled Traceability

Track your shipment's journey from origin to destination with complete transparency

Assured Reliability

Experience on-time deliveries and consistent service you can depend on

Innovation & Execution

We combine cutting-edge solutions with efficient execution to meet your evolving needs

Dedicated Client Partnerships

Benefit from personalised support from a dedicated account manager

Strategic Collaboration

We view ourselves as your partner in success, not just a supplier

HoReCa

Our chef-inspired products enhance your dishes, save time, and reduce waste. We offer market insights, cost-efficient logistics, and top-quality, ethically sourced ingredients to help your business thrive. Partner with us and propel your growth!

RTE/RTC/RTH/RTS

Our chef-inspired dishes blend traditional flavours with modern twists, offering an exciting, fresh taste experience. Elevate your dining with our sustainable, high-quality meals that transform everyday eating into a culinary adventure, where tradition meets innovation!

Our Green Family

Transgreen's Verticals

Sustainable Sourcing

We are committed to true sustainability, offering traceable, ethically sourced products. Our tech ensures you can verify our practices, building trust. Choose us for genuine, sustainable choices that benefit both you and the planet. Choose truly sustainable!

Innovation and Solutions

In the dynamic food industry, we help you unlock new opportunities and drive your business forward. We provide reliable, innovative sources that fuel creativity and growth. With market insights and future-ready solutions, we help you stay ahead, pivot, and succeed in the competitive landscape. Choose us as your GPS for success!

Our Mantra in the **Green Journey**

We utilise advanced freezing technologies to preserve peak freshness and nutrient content. From farm to freezer, our techniques ensure your food retains its just-picked flavour, texture, and nutritional value. We strongly believe that **"Frozen is the New Fresh."**

IQF (Individually Quick Frozen)

Rapidly freezes individual food pieces, preserving their shape, texture, and nutrients.

Blast Freezing

Quickly freezes fruits and vegetables to maintain texture, flavor and nutrients.

Freeze Drying

Removes moisture by freezing and sublimating ice, retaining shape, flavour, and nutrients.

Ethical sourcing

We practise working directly with farmers, ensuring that the journey from the factory to the farm to fork is completely traceable and transparent.

Sustainable practices

From energy-efficient processing to eco-friendly logistics, our practices protect and enrich the environment, leveraging green and tech driven technology to maximise efficiency.

Healthy food

Our products maintain peak freshness and nutrient content through advanced freezing technologies, providing you with high-quality options that support a healthy lifestyle.

Empower Your Journey with our **Green Team!**

Empower your journey with Transgreen! Our dedicated team excels in sourcing high-quality ingredients, ensuring rigorous quality checks, timely delivery, and personalised customer support. We offer innovative, sustainable solutions to drive your business forward, fostering long-term, trustworthy partnerships and integrating eco-friendly practices into your operations.

Join Us in Powering Up Green

At **Transgreen**, we are not just powering up green; we are transforming the world with every step we take. Embrace sustainability with Transgreen. Contact us today to start your eco-friendly journey and be a part of creating a greener future.
